TRANSCRIPT

Hello! Welcome to our bus tour of California! Today we're going to visit a special place. It's called San Juan Capistrano. It's very special because it's the home of thousands of beautiful swallows. First, we're going to visit the old church of San Juan Capistrano. It's an interesting Spanish church from the late 1700s, and it's the home of thousands of swallows! On the outside walls of the church, there are the nests of the swallows. Every year thousands of swallows leave San Juan Capistrano on the 23rd of October. They always leave on the same day. Then they fly to a warm place in Argentina, South America. It's a very long trip! Swallows are migratory birds. That means that they travel to warm places

in autumn and stay there until spring. These swallows return to San Juan Capistrano on the 19th of March. They always return on the same day and make their nests here!

A lot of tourists come to San Juan Capistrano on the 19th of March to see the swallows arrive. It's a beautiful thing to see.

After our visit to the old church, we're going to have lunch at Charlie's Café. You can have a big hamburger with fries and a salad for \$9. Or you can have a cheese and tomato sandwich for \$5.50. Drinks and desserts are extra.

TRANSCRIPT

There are a lot of beautiful and unusual gardens in the world. Some are small and some are large. Let's take a look at some of them.

Keukenhof is a very large flower garden in the Netherlands. There are more than 7 million flowers of all kinds at the Keukenhof Gardens. It's called the Garden of Europe. You can visit it in the spring, from the end of March to the end of May. There is a 15 km walking path all around the gardens. You can also take a 45-minute boat ride and see the beautiful gardens from the river. The Gardens of Versailles in France are very lovely and interesting. Here you can see more than 200,000 trees, different kinds of plants and 372 statues. There's also a beautiful castle that you can visit. About 6 million people go to the Gardens of Versailles every year.

The Kew Gardens near London are 250 years old! They're very big gardens with all kinds of plants, trees and flowers.

There's a nice lake at Kew Gardens, too. Kew Gardens are part of the UNESCO World Heritage. You can visit the gardens on foot or you can take a small train all around the gardens.

Claude Monet's gardens in Giverny, France, are famous all over the world. There are a lot of beautiful paintings of the Giverny Gardens in important art museums.

The Desert Botanical Garden in Phoenix, Arizona, USA, is a very unusual garden. There are no flowers here! Only desert plants grow in this garden. You can visit it any time of the year – it's always hot and sunny!
